Doral Office Building Earns Energy Star

Adler Group's Property Receives EPA Certification

By [Hilda Banegura](#)

April 28, 2010

Adler Group's office building located at 7875 N.W. 12th St. in Doral, FL, has earned the U.S. Environmental Protection Agency's (EPA's) ENERGY STAR Certification.

The EPA introduced ENERGY STAR in 1992 as a voluntary labeling program set forth to identify and promote energy efficiency products and practices in an effort to reduce greenhouse gas emissions. Some of the adjustments made at the 7875 Building include the conversion to energy-efficient T8 lighting, installation of window tinting to reduce heat accumulation and the continuous monitoring of the HVAC operating schedules to shut down when portions of the building are not being utilized.

The Adler Group is headquartered in Miami and has over 50 years of experience in providing a network of services including leasing, property management, acquisitions, investments, development and construction.
